ROYAL BAKING POWDER

ABSOLUTELY PURE.

Our quick cooking, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and strikes highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, pure palatable and nutritious food. Bread, biscuits, muffins, cakes, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. R. A. Witt, U. S. Government Chemist, after examining officially the principal leading powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have no doubt it is made from the best materials both for that company and the United States Government.

"Because of the fulness that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the ingredients, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.
